

Dr. Thomas Rhea, center, was commissioned by Occidental Chemical to create a special musical suite for “OxyLights<sup>SM</sup>,” a highlight of the Fifth Annual Festival of Lights at Niagara Falls, New York. Tom and Bob Makar, left and right, served as consultants to Dr. Rhea in converting the Occidental Center Building into the world’s largest light-and-sound musical synthesizer for the holiday attraction which opened a six-week run November 23rd. Dr. Rhea, director of marketing for Moog Electronics, Inc., has titled his original piece “First Album for OxyLights.”
